

Organ Donation in Hong Kong

DR CHAU KA FOON

QUEEN ELIZABETH HOSPITAL

HK Ideas Centre Survey

- Participants: 1,500 HK citizens 15 year old and above
- 80% OD is meaningful
- 43% agree OD
- 18% disagree OD
- 39% not yet decided
- **Among 43% agree OD, 74% of them hasn't registered in CODR**

HK Ideas Center Report : Major Recommendations

- **Increase public intention on organ donation**
- **Cultivate Organ Donation culture in HK**
- **Reform Organ Donation Service structure**
- **Facilitate Organ Donation process to improve conversion rate**

HK Ideas Centre Report : 13 recommendations

1. Increase OD registration channels e.g. ID card application form, driving license, passport
2. Improve current CODR registration system
3. Encourage to talk to family & friends on OD intention
4. Promote Organ Donor image e.g. memorial garden, super doctor, 生命使者
5. Support to donor family
6. Cohere different NGOs/sectors : 深入社區
7. Promote 生死教育 as liberal studies

HK Ideas Centre Report : 13 recommendations

8. Establish OD department within HA to plan & facilitate OD
9. Provide relevant training to ambulance officers, frontline staff to early detect potential organ donor
10. Set up OD bed for EOL care
11. Announce OD data regularly to public
12. Government to establish clear long-term goals & plans for OD
13. Review policy effectiveness regularly

Suggestion by HK Ideas Centre
